LOW WATER PRESSURE

Residents and businesses in a small section of the Upper Garden District will experience low water pressure on Tuesday, January 7, 2014 from 8:00 a.m. to 1:00 p.m. while crews working for the Corps of Engineers and the Sewerage and Water Board tie-in a new water line. This is related to the construction of a new SELA box culvert canal to enhance the drainage in the area.

The area affected is Prytania Street from Jefferson Avenue to Soniat Street.
