Low Water Pressure – Holy Cross Area

Residents and businesses are advised that a large section of the Holy Cross area will experience low water pressure beginning Tuesday, April 14, 2015 through Friday, April 17, 2015, from 8 a.m. to 4 p.m. each day.

Roubion Construction Company will complete the tie-in of a new 24" waterline that has been installed to serve the area.

The area affected are listed below:

4800-5200 block of St. Claude Avenue (from Industrial Canal to Eganina Street)
4800-5200 block of N. Rampart Street (from Industrial Canal to Eganina Street)
4800-5200 block Burgundy Street (from Industrial Canal to Eganina Street)
4800-5200 block Dauphine Street (from Industrial Canal to Eganina Street)
4800-5200 block Royal Street (from Industrial Canal to Eganina Street)
4800-5200 block Chartres Street (from Industrial Canal to Eganina Street)
4800-5200 block Douglas Street (from Industrial Canal to Eganina Street)

400-1000 block of Eganina Street (River to St. Claude Avenue)
400-1000 block of Lizardi Street (River to St. Claude Avenue)
400-1000 block of Forstall Street (River to St. Claude Avenue)
400-1000 block Reynes Street (River to St. Claude Avenue)
400-1000 block Tennessee Street (River to St. Claude Avenue)
400-1000 block Deslonde Street (River to St. Claude Avenue)
400-1000 block Jourdan Street (River to St. Claude Avenue)
400-1000 block Sister Court (River to St. Claude Avenue)

This work is part of the \$183 million Sewerage & Water Board/FEMA Funded Waterline Replacement Program.
