## **Sewerage and Water Board to Perform Water Line Closure on 4/24/18, Encourages CBD Residents to Report Changes in Water Pressure**

**NEW ORLEANS** – Sewerage and Water Board crews will be performing a closure of a water line on Tuesday, April 24<sup>th</sup>. The duration of the work will be from 6 a.m. to 4 p.m. The purpose of this closure is to make preparation for a repair on a 43" water main.

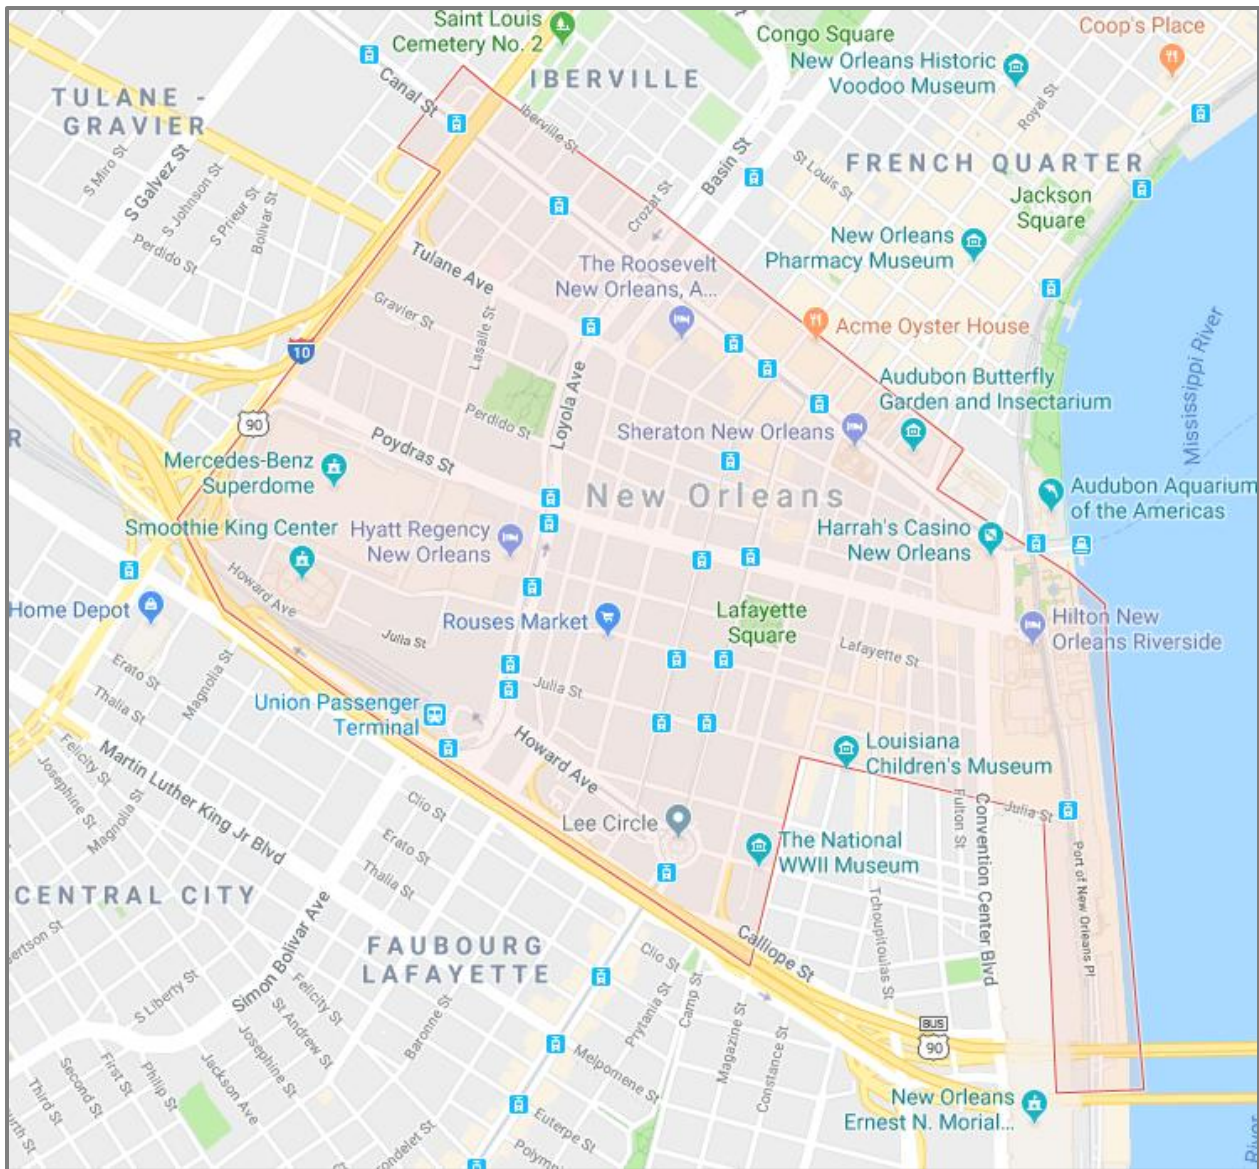

Residents and businesses in the Central Business District (CBD) may experience low water pressure on Tuesday, April 24, 2018. There will be a controlled closure with pressures closely monitored. S&WB employees will constantly monitor water pressure and assess the impact on any affected area.

However, during the closure, S&WB is asking customers to report any changes in water pressure by calling 52-WATER (529-2837). Should there be drops in water pressure, the controlled closure can be ended immediately.

We appreciate your patience as we work to improve the City's infrastructure.

**\*\*Please note that all scheduled work may change due to unforeseen circumstances such as weather delays. A link to our website that includes our latest press releases is attached for your convenience.**
