We're Improving Your Water System – Lower Ninth Ward

Boh Brothers Construction Company, working for the Sewerage and Water Board and the U.S. Army Corps of Engineers, will perform a **repair to a large water main in the upper ninth ward that serves the Lower Ninth Ward.**

Residents and businesses in the Lower Ninth Ward are not expected to experience low water pressure during the work that will occur from Tuesday, September 20, 2016 at noon until Thursday, September 22, 2016 at noon. However, if you experience pressure loss while this work is being performed please phone our Telephone Center at 52-WATER(529-2837) and notify us so that we can attempt to adjust your pressure.

This work is part of the \$119 million SELA Florida Avenue Canal Phase 2-3 Drainage Project.

We appreciate your patience as we work to improve the City's infrastructure.

**Please note that all scheduled work may change due to unforeseen circumstances such as weather delays. A link to our website that included our latest press releases is attached for your convenience.
