SWB Services Temporarily Experiencing Technical Difficulties

The Sewerage and Water Board is experiencing technical issues in the computer center. As a result of the technical issues, the Board's computer and phone capabilities are offline. Those phone capabilities include the telephone center 52WATER (529-2837).

In addition, both Board locations at 625 St. Joseph Street and the Customer Service Center in Algiers on 4021 Behrman Place, Suite M-2, will not be able to serve customers.

We expect these problems to be resolved by noon. The Board is advising customers to wait until this afternoon take care of business with the Sewerage and Water Board.
