Traffic Advisory – S. Carrollton Avenue at S. Claiborne Avenue

Residents, businesses and motorists are advised of a traffic lane shift for the southbound lanes of S. Carrollton Avenue at the S. Claiborne Avenue intersection. On Tuesday, March 31, 2015, the lanes will shift towards the center median. Two travel lanes will remain open through the intersection at all times. This traffic shift will remain in place for approximately three-months. Northbound lanes will be restored to their original configuration.

This work is part of the \$27.8 million S. Claiborne Avenue Drainage Improvement Project. B&K Construction Company is working for the Corps of Engineers and the Sewerage and Water Board.
