## **WE'RE IMPROVING YOUR DRAINAGE SYSTEM – LANE SHIFT ST. CHARLES AVENUE**

Contractors working for the Sewerage and Water Board and the Corps of Engineers will temporarily place travel lanes on St. Charles Avenue and Jefferson Avenue on the north side of the roadway for work related to the Southeast Louisiana Urban Flood Control Project (SELA).

Residents, businesses and motorists are advised that on Tuesday, March 15, 2016, west (uptown) bound and east (downtown) bound traffic will be placed on the north side or west bound lanes of St. Charles Avenue from Leontine Street to Octavia Street.

The traffic configuration will last approximately two months so that permanent roadway restoration can occur on the south side or east bound lanes of St. Charles Avenue.

We appreciate your patience as we work to improve the City's infrastructure.
