Sewerage & Water Board of New Orleans announces the launch of a new "Green Infrastructure Program" for water management.

The presentation will take place on Thursday, September 25, 2014, 6:00 p.m. at the Propeller Incubator, 4035 Washington Avenue. The Sewerage and Water Board's Environmental Affairs Department will introduce its partners in the new initiative to educate the public on new approaches to water management in New Orleans.

The Board's infrastructure investments are part of a larger evolution in public policy regarding management of water in southeastern Louisiana. It's an exciting program.
