Low Water Pressure – Jefferson Avenue (Westside from Coliseum Street to Tchoupitoulas Street)

Residents and businesses on the Westside of Jefferson Avenue from Coliseum Street to Tchoupitoulas Street will experience low water pressure on Thursday, December 10, 2015 from 8 a.m. to 5 p.m.

Cajun Construction Company, working for the Corps of Engineers and the Sewerage and Water Board will perform a tie in of a new waterline to serve the area.

This work is part of the SELA Jefferson Avenue Drainage Canal Project.

We appreciate your patience while we work to improve the City's infrastructure.
