UPDATE, UPDATE, UPDATE

We're Improving Your Water System/ Emergency Repair – Algiers Area

Sewerage and Water Board crews are continuing to perform an emergency repair to a 24" water main near the intersection of LeBoeuf Street and Diana Street that ruptured Monday evening.

Residents and businesses on several streets in the area may experience low water pressure until the repair is completed. Currently L. B. Landry High School will experience low water pressure until the repair is completed. Further updates will be provided as more information becomes available.

We appreciate your patience as we work to improve the City's infrastructure.

**Please note that all scheduled work may change due to unforeseen circumstances such as weather delays. A link to our website that includes our latest press releases is attached for your convenience.
