Water Line Closure on 4/27/18, Encourages CBD Residents to Report Changes in Water Pressure

NEW ORLEANS – Sewerage and Water Board crews will be performing a closure of a water line on Friday, April 27th. The duration of the work will be from 6 a.m. to 7 p.m. The purpose of this closure is to repair a 43" water main.

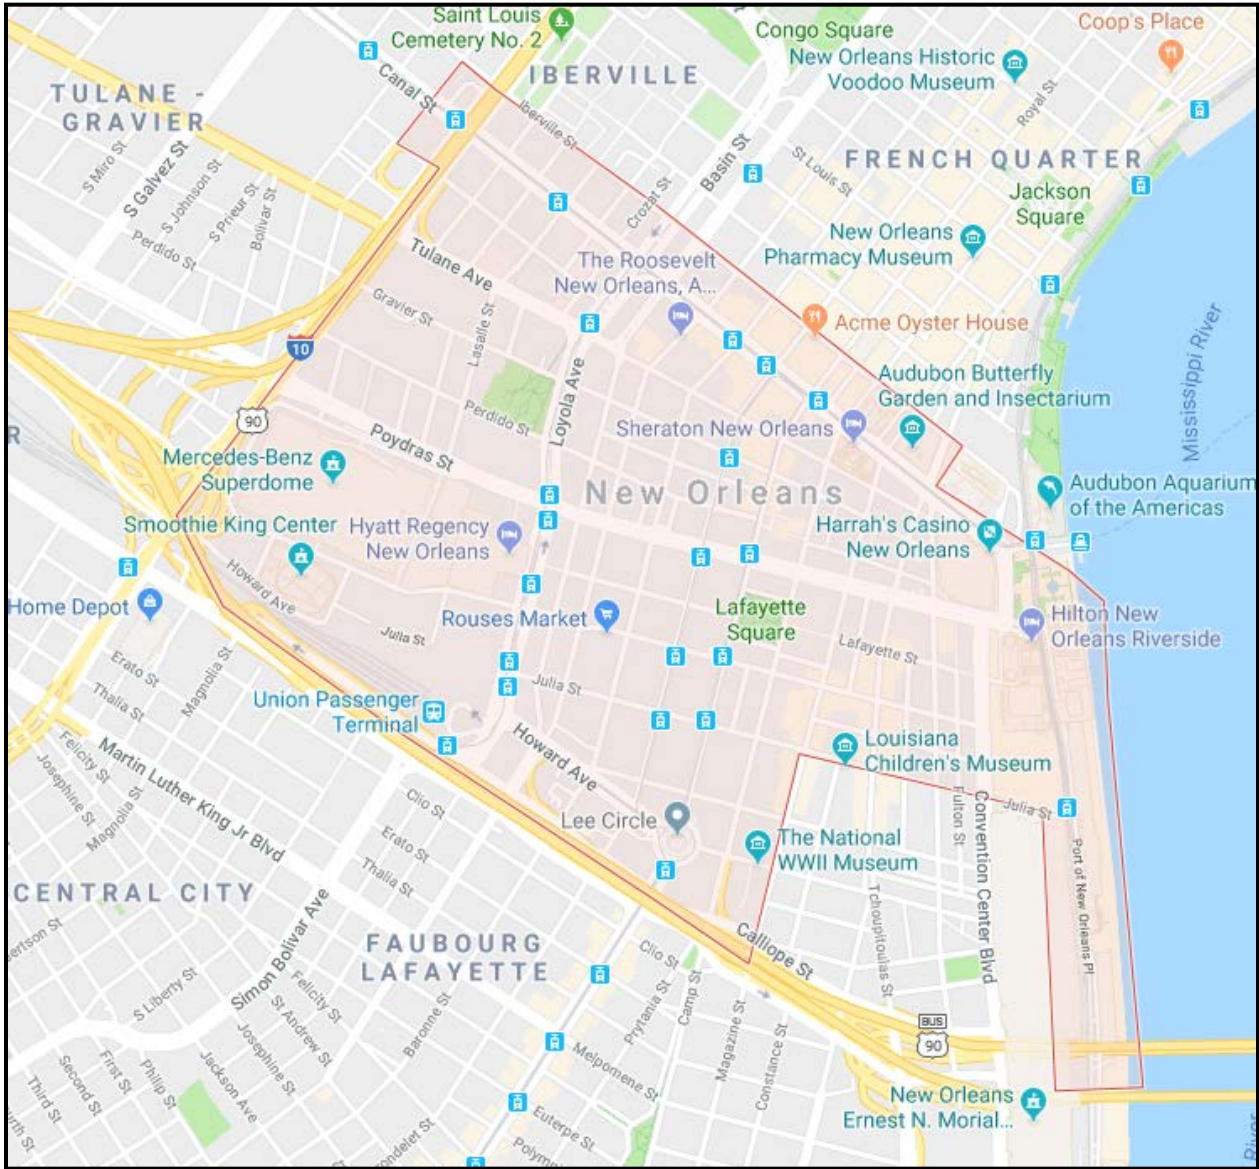

Residents and businesses in the Central Business District (CBD) may experience low water pressure on Friday, April 27, 2018. This will be a controlled closure with pressures closely monitored. S&WB employees will constantly monitor water pressure and assess the impact on any affected area.

During the closure, S&WB is asking customers to report any changes in water pressure by calling 52-WATER (529-2837).

We appreciate your patience as we work to improve the City's infrastructure.

**Please note that all scheduled work may change due to unforeseen circumstances such as weather delays. A link to our website that includes our latest press releases is attached for your convenience.
