S&WB Has Three New Board Members

The Sewerage & Water Board of New Orleans has three new Board members among its ranks.

They are District B Councilmember Stacy Head, one of three City Council persons serving on the Board, and WM. Raymond Manning and Mark M. Moody, both representing the Board of Liquidation, City Debt.

The other two City Council representatives serving on the Board are District E Councilman Jon Johnson and Councilwoman-at-Large Jacquelyn Clarkson.

Head was elected District B Councilmember in May 2006 and re-elected in February 2010. Prior to her election, she worked as an attorney focusing on litigation matters before all Louisiana state and federal courts and small business transactions.

She is a member of the New Orleans Bar Association as well as the Federal and American Bar Associations. Council member Head is also involved in Pro Bono Project Volunteer and volunteers for numerous other charitable organizations.

Manning is president and CEO of Manning Architects. Over the past 25 years, his creative leadership has established his firm with a regional and national reputation in architecture, interior design, urban design and planning.

The core of his work has been the development, planning and urban design of the City of New Orleans before and after Hurricanes Katrina and Rita in 2005.

He is President-Elect of the New Orleans Chapter of the American Institute of Architects.

Moody is lead engineer in the Rocket Propulsion Test Program Office at the NASA Stennis Space Center.

His duties include providing guidance and technical expertise on NASA rocket propulsion test facility capabilities and utilization.

He conducts comprehensive reviews of proposals for determination of the appropriate test assignment location based upon technical, cost, schedule and other important considerations. He also serves as program representative on committees, panels and working groups, including the NASA Rocket Propulsion Test Management Board and the National Rocket Propulsion Test Alliance. He has worked for NASA for 16 years.

He is an Engineer Officer, Lieutenant Colonel, in the Louisiana Army National Guard, having served since 1987.

Mayor Mitchell J. Landrieu, S&WB president, said, “We look forward to working with all three of these outstanding and talented individuals and drawing on their invaluable input and expertise as we tackle the challenge of re-building the infrastructure of our great City and finding the funds to upgrade the water, sewerage and drainage systems.”
